

# Non-stabilized power supplies

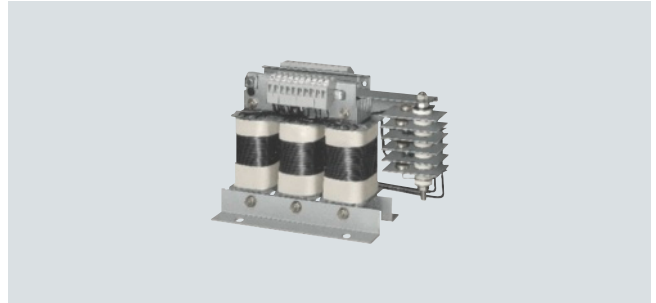

## Unfiltered for supply of general loads

**SIRIUS 4AV96 power supplies,  
unfiltered, three-phase**

### Overview

The 4AV96 power supplies comprise three-phase safety transformers according to IEC 61558-2-6 with downstream bridge connection rectifiers without capacitor filtering.

- Rated output voltage  $U_d$  30-27-24 V DC
- Safety transformer according to IEC 61558-2-6
- 
- $t_a = 50\text{ °C/B}$
- Shield winding between input and output winding
- Varistor suppressor circuit
- Designed and approved according to VW equipment specification
- Ripple < 5%
